To Whom It May Concern regarding DADA ry

This letter is a statement of support for DADA ry – the student association for New Media Students at Aalto University School of Arts, Design and Architecture. The association has proven essential for the whole study community at the Department of Media in general, and the Media Lab in particular.

DADA has arranged events for students, participated actively in curriculum development and supported new students networking with the professional field in the greater Helsinki region.

DADA is an international and inclusive community, with members and participants at events joining from across programmes, not separating majors from minors, and actively cooperating with other adjacent organisations.

As such I can warmly recommend DADA ry all the possible support to secure their continuous operations within our artistic and academic community.

Rasmus Vuori

Vice Dean in charge of education  
School of Arts, Design, and Architecture  
Aalto University
